

Transform your skills. Transform the impossible.

Intro to 7 Forces of Transformation Online Course

MJ Reiners

President of Summerland Education

20 years of experience leading large scale business transformation projects in the US and internationally.

Largest project was \$350 million with 200 full-time Change Leaders partnering with me for over two years.

Led a billion-dollar organization to launch new software in 250 offices on a single day. The project came in on time and on budget.

Does transformation feel impossible? Does your organization know how to make change stick? Are you constantly learning and growing to stay current in this fast-paced economy?

Trial and error is a miserable and expensive way to learn. But there is a better way.

Whether your organization is expanding globally, working on a start-up or transforming an existing company, you need advanced change skills in the era of disruption. Analysts, managers, and directors all need to master change to empower organizations to thrive in this fast-paced transformation economy.

To positively impact organizations, winning hearts and minds comes first. Change Leaders have to know what they are doing. They have to be able to get results!

Who Is This For?

This course is for high achievers with high commitment, including analysts, managers, directors and future Change Leaders. On average, the curriculum takes 30 hours to complete.

More Than An Online Course

This course introduces the 7 Transformation Forces and why they are so important.

Change Leaders will also learn new strategies and 7 tools so they get maximum leverage in order to build the future.

Specific kinds of practice can accelerate skill development. **The strategies and tools in this course get Change Leaders into deep practice to learn faster, achieve better results, with less cost, pain and stress.**

Do you want to advance your skills and successfully lead your organization through change? Sign up today for the Intro to the 7 Forces of Transformation.
